COMfortel® M-510

The versatile one: the ideal starter device for IP DECT telephony

- Durable: scratch and disinfectant resistant
- Up to 12 hours of talk time, up to 300 hours of standby time
- PIN-protected keylock for optimum line security
- Profiles for personal, meeting and noisy environments
- Side keys for volume adjustment during a call

Your advantages in detail

The COMfortel M-510 is optimised for everyday use in office environments. The first thing you notice when you hold the COMfortel M-510 is how great it feels in your hand. The volume keys on the side brings absolute convenience while calling where the keypad is just right to dial the right number over and over again. With its high-quality polymer finish, the handset is scratch and disinfectant resistant.

The handset is loaded with business features enriched with Bluetooth®, vibrate and audio profiles. This adapts the phone to fit to your personal needs in specific situations. The micro USB port prepares the COMfortel M-510 for future software updates to support DECT networks. This makes the handset fit perfectly to the COMfortel WS-500 single and multi-cell system.

- vCard exchange with mobile phones
- Micro-USB for charging function and data exchange / firmware update
- Headset connector 2.5 mm

NOTE

- The correct placement of the radio cells is decisive for the smooth functioning of your IP-DECT system; we therefore recommend that you leave the dimensioning and configuration to a qualified specialist dealer
- A DECT measurement can be used to determine exactly where, for example, a further basis is required to ensure supply
