

COMMUNICATION ON THE NEXT LEVEL

FONtevo®

Aims and visions

Aims and visions

Benefits for the reseller

- Extension of the IP phone portfolio in the lower price segment using SIP standard with premium functions
- Fast commissioning and administration locally as well as remotely:
 - Self labelling keys
 - Provisioning
- Price / performance fits for all target groups:
 - Contact center
 - Branches
 - Authorities
 - Hotels
 - ...

Benefits for the reseller

- Compatible with Soft- and Cloud-PBXs
- Fast and easy integration into almost all 3rd party systems:
 - API
 - LUA Scripting enabled function keys
 - XML mini-browser, compatible with Snom and Yealink

Benefits for the customer

- Professional SIP phones with low investment costs
- Made in Germany
- Simple and intuitive user interfaces:
 - allow quick introduction
 - increases productivity
 - reduces costs
- Excellent and crystal-clear voice quality for stress-free communication
- Support of cordless headsets (DHSG/EHS) for high mobility and "hands-free" communication already at the entry-level device
